MADE IN THE UNITED STATES OF AMERICA

CONTENTS OF VOLUME 8

Number 1, July 1973

B. M. Longenecker, E. Pazderka, G. R. J. Law, and R. F. Ruth. The Graft-Versus-Host Reaction to Minor Alloantigens 1

Alison M. Badger, Sidney R. Cooperband, and Jon A. Green. Culture Conditions Affecting Induction and Release of Lymphocyte Produced Proliferation Inhibitory Factor (PIF) 12

Jacques M. Chiller, Carole G. Romball, and William O. Weigel. Introduction of Immunological Tolerance in Neonatal and Adult Rabbits. Differences in the Cellular Events 28

Egilde Seravalli and Angelo Taranta. Release of Macrophase Migration Inhibitory Factor(s) from Lymphocytes Stimulated by Streptococcal Preparations 40

John E. Curtis and Evan M. Hersh. Cellular Immunity in Man: Correlation of Leukocyte Migration Inhibitor Factor Formation and Delayed Hypersensitivity 55

J. J. Oppenheim, R. M. Blaese, J. E. Horton, D. E. Thor, and G. A. Granger. Production of Macrophage Migration Inhibitory Factor and Lymphotoxin by Leukocytes from Normal and Wiskott–Aldrich Syndrome Patients 62

Vera Stejskal, Göran Holm, and Peter Perlmann. Differential Cytotoxicity of Activated Lymphocytes on Allogeneic and Xenogeneic Target Cells. I. Activation by Tuberculin and by *Staphylococcus* Filtrate 71

Vera Stejskal, Sylvia Lindberg, Göran Holm, and Peter Perlmann. Differential Cytotoxicity of Activated Lymphocytes on Allogeneic and Xenogeneic Target Cells. II. Activation by Phytohemagglutinin 82

P. W. Kincade, K. S. Self, and M. D. Cooper. Survival and Function of Bursa-derived Cells in Bursectomized Chickens 93

W. P. McArthur, D. G. Gilmour, and G. J. Thorbecke. Immunocompetent Cells in the Chicken. II. Synergism between Thymus Cells and either Bursa or Bone Marrow Cells in the Humoral Immune Response to Sheep Erythrocytes 103

A. R. Moore and J. G. Hall. Nonspecific Entry of Thoracic Duct Immunoblasts Into Intradermal Foci of Antigens 112

John R. Graybill, Joseph Silva, Jr., Robert H. Alford, and Daniel E. Thor. Immunologic and Clinical Improvement of Progressive Coccidioidiomycosis Following Administration of Transfer Factor 120

C. K. Grant, R. Evans, and P. Alexander. Multiple Effector Roles of Lymphocytes in Allograft Immunity 136

Denis R. Burger, David P. Lilley, Marilyn Reid, Lawrence Irish, and R. Mark Vetto. Alpha Globulin Changes During the Development of Cellular Immunity 147

N. Hanna, R. W. Ferraresi, and S. Leskowitz. *In Vitro* Correlates of Hapten-specific Delayed Hypersensitivity 155

Short Communications

Andrezej J. Górski, Tadeusz Orlowski, Zbigniew Pomorski Maria Zelechowska, and Stanislaw Kwiek. The Modification of Peripheral Leukocyte-Migration Test Using Preincubation with Specific Antigen 162

W. Page Faulk, J. R. Goodman, Mary A. Maloney, H. Hugh Fudenberg, and J. M. Yoffey. Morphology and Nucleoside Incorporation of Human Neonatal Lymphocytes 166

H. Hirschberg and E. Thorsby. Specificity of Responding Cell Populations in Mixed Lymphocyte Cultures 173

H. Ramseier. Activation of T and B Thymus Cells to Recognize Histocompatibility Antigens 177

Announcement 184

Papers to Appear in Forthcoming Issues 185

Number 2, August 1973

Chin-Yu Wu and B. Cinader. A Cell Population Study of IgM Affinity Maturation 189

Carol M. Newlin. Comparison of the Responses of Density Gradient Separated Lymphocytes to Phytohemagglutinin and Histocompatibility Antigens 198

Irun R. Cohen. The Recruitment of Specific Effector Lymphocytes by Antigen-Reactive Lymphocytes in Cell-Mediated Autosensitization and Allosensitization Reactions 209

Marvin Fishman and Frank L. Adler. The Formation of Immunogenic RNA-Antigen Complexes in a Cell-Free System 221

Leif C. Andersson, Stig Nordling, and Pekka Häyry. Fractionation of Mouse T and B Lymphocytes by Preparative Cell Electrophoresis. Efficiency of the Method 235

Holzman, R. S., A. S. Lebowitz, F. T. Valentine, and H. S. Lawrence. Preparation and Properties of Cloning Inhibitory Factory. I. Inhibition of HeLa Cell Cloning by Stimulated Lymphocytes and Their Culture Supernatants 249

R. S. Holzman, F. T. Valentine, and H. S. Lawrence. Preparation and Properties of Cloning Inhibitory Factor. II. Factors Affecting Its Production and Assay 259

J. W. Hollingsworth, and Judith Carr. ^{3}H-Uridine Incorporation as a *T* Lymphocyte Indicator in the Rat 270

Jagat N. Singh, E. Sabbadini, and A. H. Sehon. Detection of Nonspecific Cytotoxicity in Graft-versus-Host Reaction as a Function of Target Cell Type 280

Bryan M. Gebhardt. Mixed Lymphocyte Reactions: Absence of Stimulation by Irradiated Allogeneic Cells 290

M. J. Taussig, Edna Mozes, G. M. Shearer, and Michael Sela. Antigenic Competition and Genetic Control of the Immune Response. A Hypothesis for Intramolecular Competition 299

Shelia Gillette and Joseph A. Bellanti. Kinetics of Lymphoid Cells in Tumor-Bearing Mice 311

Short Communications

Kendall A. Smith, Leonard Chess, and Michael R. Mardiney, Jr. The Relationship Between Rubella Hemagglutination Inhibition Antibody (HIA) and Rubella Induced *In Vitro* Lymphocyte Tritiated Thymidine Incorporation 321

Robertson Parkman and Ezio Merler. Discontinuous Density Gradient Analysis of the Developing Human Thymus 328

Richard B. Lies and James B. Peter. Cyclic AMP Inhibition of Cytotoxin ("Lymphotoxin") Elaboration by Stimulated Lymphocytes 332

Papers to Appear in Forthcoming Issues 336

Number 3, September 1973
